Laks-studenten & NJR, Buckingham palace, Kremlin, China-government, African Union, North-Korea, NCVO, BBC, Guardian, Wikileaks,

This email will be published on www.nlfschool.com

I need to explain something to NL-students about the attitude of NL-politicians & Higher Education.

And the way it damages the lives of Young Adults & Economy...

The main problem for NL-students is the fact that NL is growing old.

Younger people are forced to adjust themselves to the nasty habits of the Older ones.

Older persons are lower-educated, what they refuse to acknowledge.
They are the baby-boomers, with a live in prosperity
= materialisme, lifetime jobs, welfare systems & pensioen-systems.

When the Older generation dies, they have left pollution & poverty to the NL-Young Adults.

They have left something more
= a full break down of the legal system & old-fashion knowledge on psychology.
= a criminal media-system.

Today's Young Adults have never learned to work with laws & treaties,
never learned to use their legal-powers in talks or to write letters to get their business done.
They need these skills but are not aware of it!

The Older-generation has taught the Young students 'to protest on the street in order to get things done form politicians'. **This is ineffective nowadays!**

The Young students are not aware of the methods staff of Higher educations & Universities use
'to make themselves more powerful at the cost of future of the Young Adults'.

What students don't realize is - for example - the fact that our Professors & Teachers are soo corrupt
that they will always win.... Politicians will always make decisions that keep the corruption going.

Example:

When a civilians is in big need - 100% lawless & traumatized - they turn to Profs to help them out.
Civilians expect Profs to assist them in Evolution for Intelligende, Education, Law, Social issues, Health...

These civilians discover 'that there is not 1 Prof in NL who want to assist them'.
All Profs have placed themselves about mankind
= they are better persons than others who are forced to accept the hard reality in our society.

The result is that our NL-Profes give the wrong advices to NL-politicians...and even foreign Profes/Politicians.

This harms the bodies of the Young Adults.
Their parents can't find solutions the family needs.
The power & money are flying above the community.
The media WANTS to keep these 2 world separate....for their own comfortable rich lifestyle.

NL-students get the blame = they refuse to study = they are lazy!

**NL is not designed for the future...and will never be...when Young students don't understand
HOW the Older ones destroy them.**

**It is of utmost importance that NL-students 'wake up...and take the design of their future into their own hands',
despite the fact that they have never learned to do so.**

On www.nlfschool.com I have explained how to use the torture-treaty to separate politicians from eachother...and to make politicians work with legal obligation anchored in Human Right-treaties.

This is for the NL-Young Adults the only new raw material for a design..they need.

And they need something else!
In NL education is old-fashion.
Schools have become large factories.
Its unclear 'what Profes do'.

Sometimes you wonder 'why do we still have Profes'?
For the exchange of Intelligence...or for the maintenance of their yearincome?

Education is not designed to make the Young students more intelligent.

Example:

Kids of 16-years old get their HAVO-degree.
Than they can study at the VWO...as a preperation for the Universsity...
or they go to the HBO.

Kids of 17-years old are made to travel to the school, by bus, train....
The problem is 'that the brains of these kids are still immature.
They can't cope with everything at once

= transport, lazy, corrupt teachers...and the content of the study

As a mother of a son with minor autism, I must reconsider this all!
My son is now 14 years old, will have his HAVO-degree when he is 16-years old.
He can only study maths, physics...and other pain science.
He has no empty feelings, can't take good care of his body.
Can;t make friends...Needs a lot of rest.

When he studies in a calm environment, he will have mark 7 or higher!
He will not be lazy at science...

The problem is that he must travel to Amsterdam or Alkmaar for that specific HBO-science study.
What he can't handle!
He will fail, due to a waist of energy for the wrong behavior.

I want to make clear that Younger students need smaller schools, in all the main cities... and they need calmness.

They need Profs who are willing to teach them something.
Profs with a business-mentality
= entrepreneurship in stead of favourism & corruption.

Students must make clear to politicians:

That they need a Study-environment far away from drugs, alcohol, vulgar sex, criminal police-officers. Lazy, criminal-minded politicians...

That they needs lessons in Law & Psychology at every school.

<http://www.edu.ru/>

Medvedev.... Is this the Russian website of the Ministry of Education...?

When are you going to learn, Dmitri?

When you want peace...you need to write in English....

For over 2 years I am nagging about the fact that Russia-government has still not a readable website to China-standards.

You think you get away with it, because Russia invests in NL.
But you are wrong!

Russia supports the Older NL-generation in the destruction of the Younger students.

**Russia Ministry of Foreign Affairs,
please forward this email to Dmitri Medvedev and your Russian EDU-ministry.**

China,

I am angry with you!

You keep the International Criminal Court a Lobby- & Assasination-centre, while you don't need to obtain power in NL.

We both know...that China will also be in controle of NL, when ICC is a fair court of law. What you do is destroy the Intelligence of the Young people in NL.

While you are going to need them!

I need you to help me clear to NL-politicians that ALL kids must have Law & Psychology-education at primary- & secundaury-school...and higher schools, of course....

In NL it will take another 10 years before politicians are prepared to give kids a chance on Education they need.

The Older- generation doesn't want to change their own laziness. They don't want kids to be smarter than they are. They only want to die in their Butler-lifestyle, while the kids do all their dirty-jobs.

They don't want kids to have the opportunity to get a well-payd job, so they can buy a house. They don't want kids to be able to start a family. They don't want to take care of neglected kids, other than with police-force & punishments. They don't want to change the social-climate for the better 'to minimalize poverty'.We have an increase in poverty in NL.

And stop ICC!

You are now observing me being torutred & murdered by ICC-employees, while I am the only one in NL who can push the Future into the direction needed.

Time to stop writing.

I have done my homework today, for you ...kids... Don't be too afraid to make politicians conduct Human Right-treaties.

Put into words the type of educational-climate you need in NL...and UK...and Russia...and...
