Open Brief / Open Letter to

Bolivia

Some private thoughts to overcome the Longdistance-track between us

22 april 2009

Evo Morales,

Its 11.12 hours.

I want Bolivia to become more visable in NL & EU.

Have found an (email)address of the Bolivia-embassy in The Hague..., but you don't give a website!

This has to change. ICC is too currupt to igore it; in EU & UN you will get bad deals for Bolivia.

And, you'll never discover 'whats going on behind your back'.

My intuition tells me 'that I can have an easy-going relationship with Evo Morales'.

Oké..., intuition travels far when Gods & Goddesses allow me to zoom by...

I only have to overcome 10.136 km between Haarlem & Santa Cruz

Once G & G gave me a scooter for a journey from Moscow to Haarlem. 27 Minutes through Galaxy!

So beautiful...

For a high tea with Evo, they only give me introspection...and the freedom to find new coördinates...

Oei..., imposed Evolution!

I've got to google the Galaxy myself.

Learned to rely on guides, but up till now.. I have not met one...who instructs me on Bolivia.

The stone-ring between Galaxies is the limit. Au....?

It also means that you are 'a Space-zoomer'; G & G trust you to find the route to Me, Myself & I.

You've got acces to all three of us.

What do I need to know?

- what kind of woman you need, to support your identity
- how you want to relate to her, for which EQ-moods & targets in Bolivia
- how you want to build EQ-moods with her together
- what you want to accomplish for your individual growth

Our relationship is aimed at the movement from...

'Lawless community into Self-effectiveness for every Individual':

- What kind of psychology do you need to make your people believe in 'building a Good future for Individuals'.
- You have to put in words what you need – for your people and for yourself -.
When you forget to give words to your own personal needs as a human being at work, you'll fall into a trap = you will loose yourself, what weakens your work.
- When you give me an inside look in your Thinking-, I'll give you psychology to make yourself & Bolivia stronger.

Have an energyzing day; the sun encourages you,
